SUMMARY

Information Technology student seeking an On-the-Job Training placement for the 2nd Semester of SY 2026–2027. Builds and deploys full-stack web applications (React, Next.js, PHP, MySQL) with security best practices, and holds Certiport certifications in Networking and Cybersecurity.

EDUCATION

University of the East, Manila *Expected Graduation: 2027*
Bachelor of Science in Information Technology
On-the-Job Training scheduled for 2nd Semester, SY 2026–2027
Arellano University, Andres Bonifacio Campus
Senior High School — Graduated with High Honors (Grade 12)
Benigno Ninoy S. Aquino High School
Junior High School Graduate

CERTIFICATIONS

- Cybersecurity — Certiport (November 2025): covers foundational security principles, threat identification, and protection practices
- Networking — Certiport (April 2026): covers core networking concepts, infrastructure, and protocols
- AI for Good Workshop, Certificate of Completion — AI Singapore, supported by Meta (April 2025)
- Google AI Training Workshop, Certificate of Completion (September 2026)

PROJECTS

Barangay Central (Thesis Project) | *PHP, JavaScript, Tailwind CSS, MySQL* barangaycentral.com/public

- Designed and developed a full e-government web system for an actual local government unit (barangay), used by residents and staff
- Built modules for resident management, document requests, and community services
- Handled database architecture and deployment of the live system
- Applied input validation and secure authentication to protect resident data
- Source code is private due to real resident data; available upon request

KARMÉ — Luxury That Lingers | *React, Next.js, Tailwind CSS* karmefragrance.vercel.app

- Independently built a full e-commerce website for a fragrance startup in its early launch phase
- Developed the product catalog, product detail pages, shopping cart, and brand storytelling pages
- Handled the full pipeline from design to production deployment

Personal Portfolio | *React, Next.js, Tailwind CSS* jesspaguel.tech

- Designed, built, and deployed a portfolio site showcasing projects, skills, and certifications

Home Lab | *Coolify, AdGuard*

- Built and maintain a home lab running Coolify, a self-hosted platform that hosts my personal portfolio site
- Set up AdGuard to minimize ads across my home network

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, Tailwind CSS, React, Next.js
Backend: PHP, MySQL, REST APIs
Networking and Security: Core networking fundamentals, network security practices, secure authentication, input validation
Tools: Git, GitHub, VS Code, Figma, Vercel
