PROFILE

IT student who builds and ships real-world web systems, backed by Certiport certifications in networking and cybersecurity (with network security in progress). Comfortable across the stack — from React/Next.js interfaces to PHP/MySQL backends — with a growing focus on building software with security best practices in mind.

EDUCATION

University of the East, Manila

Bachelor of Science in Information Technology

Expected Graduation: 2027

On-the-Job Training scheduled for 2nd Semester, SY 2026–2027

Arellano University, Andres Bonifacio Campus

Senior High School — Graduated with High Honors (Grade 11 — With Honors)

Benigno Ninoy S. Aquino High School

Junior High School Graduate

CERTIFICATIONS

- Networking — Certiport (April 2026)
- Cybersecurity — Certiport (November 2025)

Currently pursuing: Network Security (Certiport), exam around October — Cloud Computing to follow

SKILLS

Frontend: HTML, CSS, JavaScript, Tailwind CSS, React, Next.js

Backend: PHP, MySQL, REST APIs

Tools: Git, GitHub, VS Code, Figma, Vercel

PROJECTS

Barangay Central

PHP • JavaScript • Tailwind CSS • MySQL

- Thesis project: a full e-government web system for an actual local government unit.
- Handles resident management, document requests, and community services for real users.
- Built with attention to security practices, including input validation and secure authentication.

KARMÉ — Luxury That Lingers

React • Next.js • Tailwind CSS

- Full e-commerce website built for a real fragrance startup (my sister's business), currently in its early launch phase.
- Features a product catalog, individual product pages, shopping cart, and brand storytelling.
- Independently designed, developed, and deployed the site end-to-end.
